

Conflict of interest at its highest level.

The President of the Supreme Court,

President of joint Court of Justice,

Oranjestad

This message is of great concern as it is a situation that needs serious attention and should be resolved at its earliest.

I was in Sint Maarten and hear this abuse from my families.

It concerns a member of the joint Court of Justice in Sint Maarten who is the judge of instruction.

It did surprise me my family and everybody that is judge is doing the civil cases only from certain friendly law firms. The question is, if is this possible?.

This judge initiates a relationship with another man a lawyer of an active law firm in Cay Hill on the island of Sint Maarten.

This judge which is not public secret in the justice field. This judge put the job of judge of instruction on the side and is doing more and more civil cases and is handling matters from this law firm in particular and some others just to protect himself and so he can do the cases of his partner and his brother in law, law firm. The brother of the partner is married to a female lawyer who runs a law office outside the town.

This triangle affairs which is known to most of all the local lawyers is becoming of the courts especially in a small community. Persons seeking justice are unaware of the game that their case is in hand of the one and only judge, his sister in law on side and it laborates of his brother in law on the other side.

Naturally the favoritism leaning towards two particular lawfirm which are the lawfirm of the partner, brother and sister in law who uses her maiden name to associate with another lawfirm. Is Van Raak, Brinkman en Bosman right who is calling Sint Maarten and Curacao always a rovernest? How many more clients like my family has to be taken for fool by this triangle group calling the JAG-TEAM.

The world surrounding this triangle is upside down. How can the courts of such high standards permits itself to down graded by this group of greedy, unrespectful to the job they have taken to uphold integrity. I hear that this judge ironically has been appointed as the public relation officer for the court of Sint Maarten, and is the face or suppose to be the face of the courts.

This mister judge is sharing his house with his partner where everybody knows everything from every cases.

The courts are naive to say the least to accept such a conspiracy theory played against unaware clients seeking justice for whatever situation they might be in. It is so hypothetical!!!

Sign by a concern group who still believe in the justice system.

The judge is Mauris De Kort and the firms are LAW FIRM BZSE IS OWND BY THE BROTHERS BERGMAN AND THE OTHER LAW FIRM AT MAHO TO LAWYER HUISMAN WHO IS MARRIED TO GERT BERGMAN.
